STEM India Experiential Fellowship

A ten-day experiential visit to India to include opportunities to:

- Visit rural agricultural research facilities to understand challenges and grassroots level innovations
- Observe Historical and Cultural STEM perspectives through visits to heritage sites and monuments
- Attend Workshops on STEM in YOGA; Art and Music and how this impacts Health and Well-being
- Explore the latest developments in energy and environmental research impacting climate change

EXSTEMPLAR Education Linkers foundation provides the opportunity for a STEM India experiential fellowship to explore research facilities; experience learning opportunities through interaction with faculty members at leading STEM institutions in India; appreciate the natural wonders and heritage of one of the oldest civilizations on the planet, and build awareness of its cultural significance and intellectual prowess.

“Without your involvement you can’t succeed. With your involvement you can’t fail.”

- Dr. A P J Abdul Kalam

THE VISIT INCLUDES

All meals on a daily basis

Entry fee for all cultural and heritage sites

Hotel stay and local transportation arrangements

Visits to Indian research facilities and interaction with University STEM faculty

Meetings and discussions with people of all ages with myriad experiences to share, will surely strike a chord and paint pictures in the mind which are beyond imagination.

This STEM experiential fellowship is a wonderful chance to explore new perspectives and build on an understanding of cross border innovative thought processes.
